NEW ! Dipsters skin-off

These nicely curved french fries are an originally shaped side-dish in many meals : made from carefully selected potatoes, with a high dry matter, they are a tasty and crispy complement to your meal. Their fun form and shape appeal to everyone. Available in skin-on and skin-off, both products invite you to dip and eat and to enjoy the full taste of potato.

Place them on a tapas plate and you will discover the many possibilities of these fries.

They are prefried in sunflower oil and therefore contain less saturated fats. For your convenience, both fryer and oven preparation give excellent results.
